

MARIA ALBUQUERQUE

VICE-PRESIDENT

ACADEMIC TRAINING

Degree in Civil Engineering - Engineering Faculty of the University of Porto (2006);

Integrated Master's Degree in Civil Engineering (area of Spatial Planning and Environment) - Engineering Faculty of the University of Porto (2010).

WORK EXPERIENCE

2016 - 2022

Part of the management structure team of IFRRU 2020 - Financial Instrument for Urban Rehabilitation and Revitalisation, working in the management of European funds.

2013 - 2015

Assistant to the Secretary of State for Spatial Planning and Nature Conservation of the XIX Constitutional Government, having mainly followed matters related to city management and having actively participated in the preparation of the European funding framework Portugal 2020 in the areas of urban development, urban regeneration and nature conservation.

2013

Assistant to the Secretary of State for Environment and Spatial Planning of the XIX Constitutional Government.

2007 - 2013

Project Manager at TRENMO Engenharia S.A., where she was responsible for various projects related to optimisation and organisation in the transport sector in urban areas, particularly in the Lisbon Metropolitan Area, working with Carris and Metro de Lisboa.

2006 - 2007

Research Assistant in the Transport Laboratory of the Planning, Transport and Environment Section of the Engineering Faculty of the University of Porto, having collaborated directly with the then Directorate-General of Land Transport on the National Transport Model, among other transport engineering projects.
